QUALITY THAT LASTS

Pylon Signage

With many years expertise, Sign Concepts delivers superior building pylon outdoor signage

Design, Manufacture & Installation

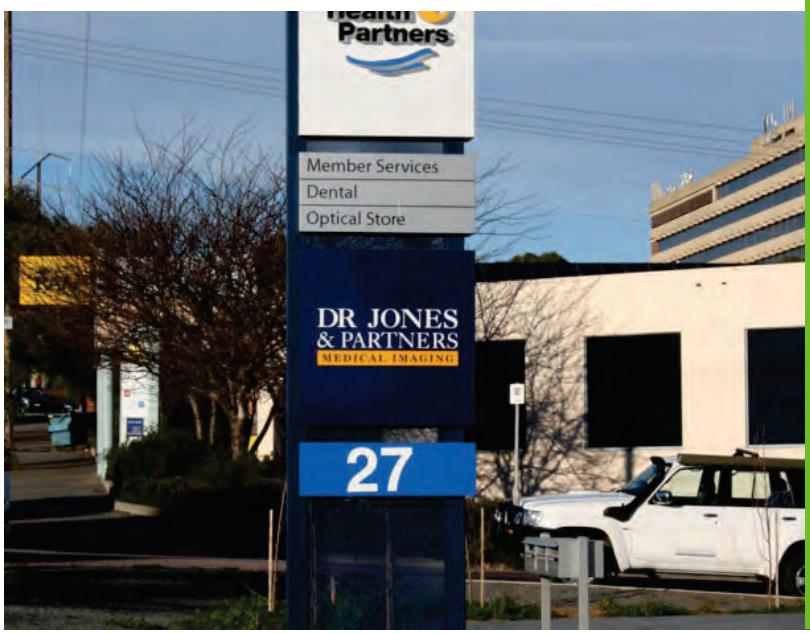
- We know the right materials for design
- Manufacture to your specifications and council requirements, using cutting-edge manufacturing technologies

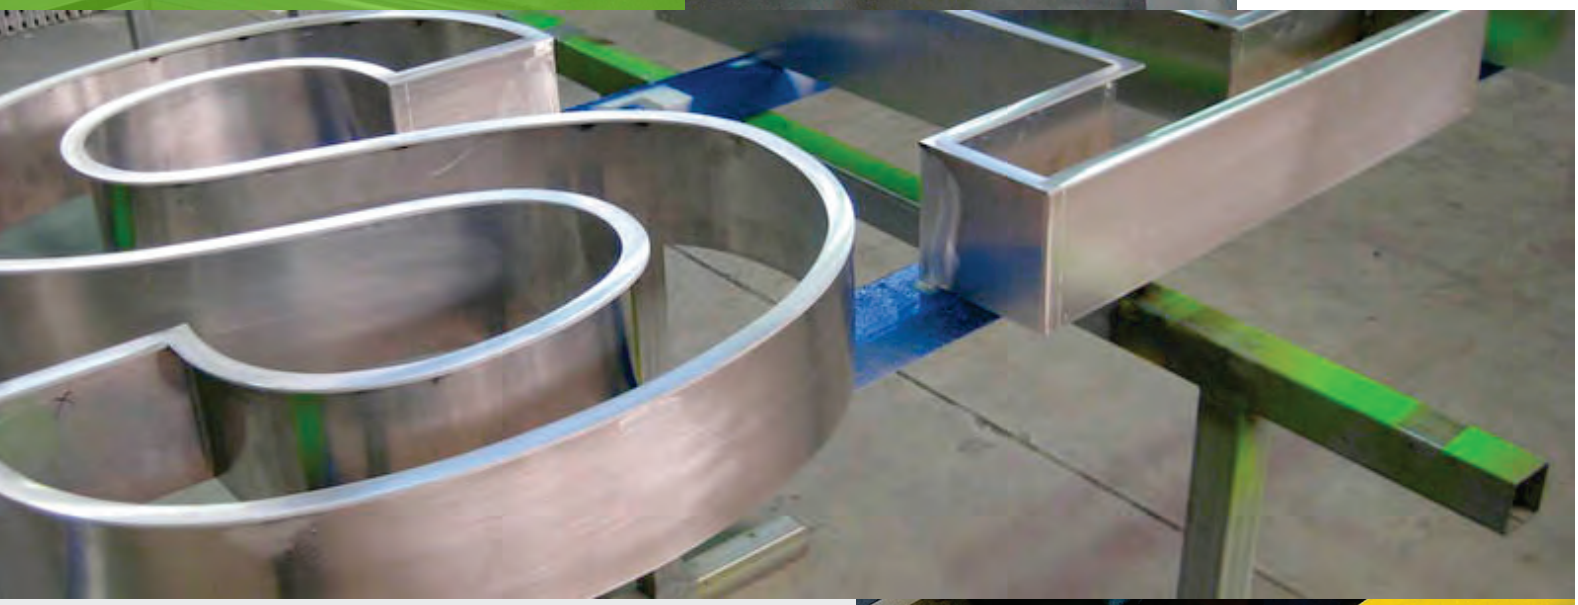
Current Trends

- Pylons ,illuminated LED - bright, economical, and long-lasting
- Laser Cut Fabricated Letters - stainless steel and brass are now popular
- 3D Letters illuminated and Halo lettering

Project Management | Compliance

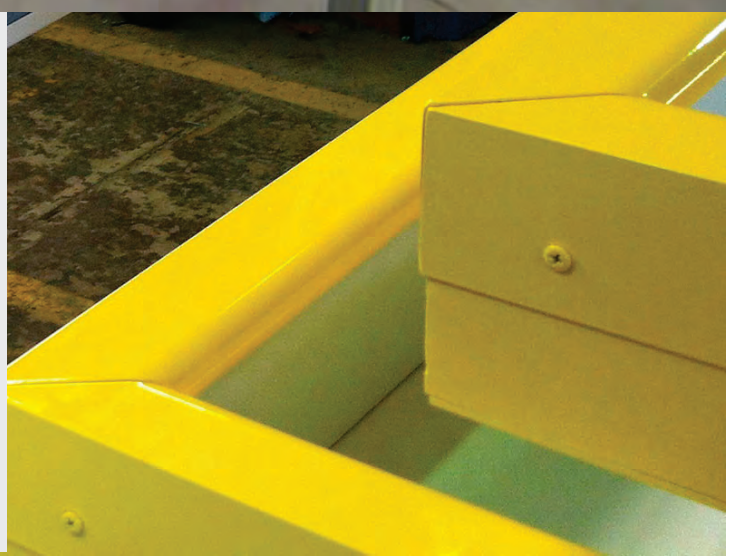
- Working directly with engineers, councils and other planning bodies to resolve issues
- Our strict WHS procedures and exacting standards ensure we comply with the very highest of industry standards





Fabricating your project

All projects require planning. Consider the message, the location and timing the install, we will meet all of your requirements for install on time. Large signs need planning and council approval



LIGHT UP YOUR BUSINESS

Illuminated Signs

Different Types

- Lightboxes - Single or double-sided with various lighting options
- Edge/side or backlit signs - popular indoor option for the elegant and dramatic 'halo' effect
- 3D Fabricated Letters & Logos

LED Technology Benefits

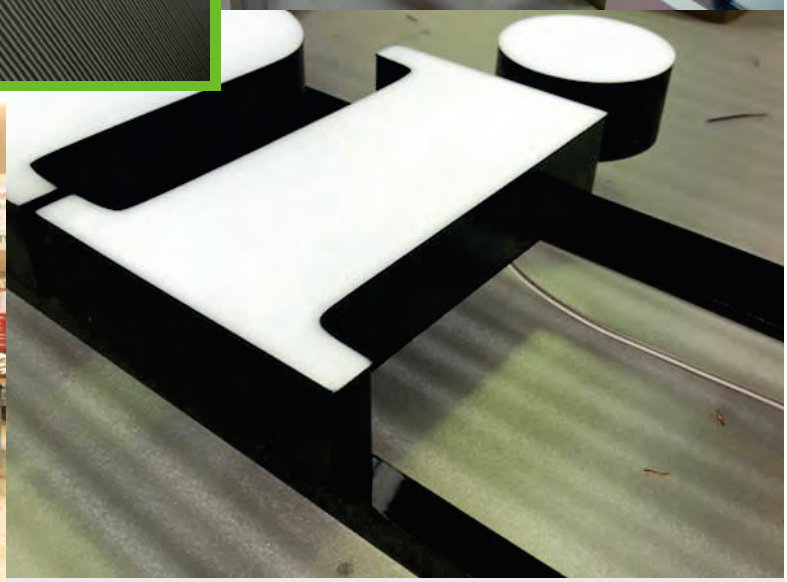
- Brighter light than neon.
- Longevity & reliability
- Changeability - parts are easily replaced or upgraded
- Cost Savings - cheaper to run, and better for the environment

Compliance

- We ensure you're within your specific compliance parameters in all situations
- Minimise risk and remain within industry guidelines at all times
- We always work with authorities in a transparent and honest way

3D Dimensional Letters

We manufacture fabricated 3D letters
in acrylic and aluminium, with options for solid or illuminated sides
or halo lighting.



One of our specialist areas is manufacturing 3 dimensional illuminated letters from aluminium. We make them with illuminated acrylic faces, or fully aluminium, for greater strength and durability where side-lighting is not required.

General Metal Fabrication

Previous custom projects include gates, power & lighting poles and more.
We have the capabilities to provide small to medium structural steelwork, and any general welding & fabrication projects.

Spray Painting

We offer In-house spray painting services of all industrial coatings including 2 pack automotive systems.

Our new booth can accommodate large pylons and structures.

Our Process

At Sign Concepts we pride ourselves on helping simplify the manufacturing process.

1. PROJECT MANAGEMENT

At Sign Concepts we understand managing the implementation and roll-out of your clients corporate brand can be stressful and laborious. we can manage your customers signage through one single point

2. REGULATION & COMPLIANCE

As all councils can be different it is best to contact them directly so they can specify what you need for a successful application.

Your Sign Concepts consultant may assist you in this process.

3. HIGH QUALITY MANUFACTURING

Your business signage is a reflection of your company and what you stand for – and this should only be the best.

4. MAINTENANCE & CARE

Just as there's no point getting your sign all dressed up if it's not installed properly, nor does it do you any good if it isn't maintained to the right standard Office and Corporate
